

(United Way)

I don't know where to start to begin to thank you for giving me part of my life back. I was recently released from ICU without the ability to walk up and downstairs and thanks to you. I'm able to leave the house again the guys that were sent over to build the wheelchair ramp , we're extremely nice and got the job done quick so now I can get out and about what my family.I don't know what I would've done. You were easy to talk to quick and responsible and I can't thank you enough for what you did for me and my family. All I can say is thank you. I wish I could do more to show my appreciation when we called you. You were right on it with no hesitation. it turned out to be the best thing that's happened to me in a long time now I can make it to my doctors appointment again thank you very much.

We sincerely thank you the Dortman family
